

## **Bay Crest Park Special Dependent Tax District**

### **Minutes of May 11, 2020 Regular Meeting**

#### *Addressing Boat Ramp Agreement Concerns*

President Jacobs acknowledged the Bay Crest Park residents in attendance who wanted to discuss the changes to the Boat Ramp Agreement. Residents were asked to state their name and constructive statements. Due to the open environment of the parking lot it, was difficult to hear all the comments fully. The list below represents comments and questions raised:

- What was the reason for the new rules?
- Why does the form now say that access will be restricted/deactivated when it didn't say that before?
- What can we do to make a change?
- Take issue with signing a legal document saying fob will be turned off if rules violated but not enforcing.
- What are the differences between the original document and the new document?
- It's a private boat ramp, why have restrictions on hours of use? Why can't residents use when they want and be respectful of neighbors?
- How can we work together to come up with a reasonable solution?

President Jacobs suggested everyone with a question, concern, or suggestion send an email to the Boat Ramp email address so the Board can review and discuss. He encouraged residents to attend next meeting to continue the conversation.
